Subject: VB/I-70 Working Group Meeting , July 11

I've put together a suggested agenda for the July 11 meeting. Please let me know if there are other items which should be included.

PLEASE NOTE: Channel 4 News requested information about this meeting and will likely attend since it is an open meeting.

See you Thursday.

**WORKING GROUP MEETING
THURSDAY
July 11, 2002**

**SWANSEA RECREATION CENTER
2650 EAST 49TH AVENUE
9:00 AM- Noon**

Background:

Since our last meeting, there has been local and national media coverage regarding the Superfund program's budget for remedial action and how VB/I-70 was affected this year. Our first agenda item is to discuss the budget for cleanup work and provide the working group with the facts concerning VB/I-70. Roger Hoogerheide has agreed to attend this meeting and answer questions about the budget process. He did this at our meeting on March 21 and everyone found it very helpful. The community representatives did not attend the March meeting so Roger has agreed to a repeat performance. Dale Vodehnal, Region 8's Superfund Program Manager will also attend.

The second agenda item concerns the proposed Community Health Program. We are still in the public comment period for the Proposed Plan for VB/I-70 Residential Soils. At our last meeting in May, the working group requested that EPA include a discussion of the

details of the proposed Community Health Program on the agenda for this meeting. EPA has invited representatives of the Colorado Department of Public Health and Environment's Lead Poisoning Prevention Program, Denver Environmental Health, and the Northeast Denver Housing Center, to discuss their programs with the working group so we can identify specific ways EPA's proposed remedial action Community Health Program will fill gaps in existing services for children who live in Vb/I-70.

PROPOSED AGENDA ITEMS

- 1. Superfund Budget and VB/I-70 (9:00 - 10:20)**

- 10 minute break -
- 2. Community Health Program Details (10:30-11:30)**

-what services are currently available to the community (monitoring, follow-up, lead paint abatement, physician referral)

-what is the need for additional services?

-role of the Community Health Program
- 3. Community Issues (11:30 - noon)**
